

HYUNDAI THERMOTEC[®] REFRIGERATED VAN

 **HYUNDAI TRANSLEAD**

Efficient Stronger Lighter

Durability

Protected against the wear of time and use, the ThermoTech® Refrigerated Van delivers freight with lower lifetime operational costs.

- Roof bonded to foam insulation, reduces delamination
- Anti-corrosion package with hot-dipped galvanization
- High strength upper coupler
- Automated welding on all floor seams
- Aluminum welded floor joints
- Extruded 5.5" crossmembers
- Snag-free interior
- IIHS ToughGuard awarded RIG-30L bumper
- Stainless steel bolted coupler front rail
- No exposed fasteners
- 18,000 lbs. floor rating

Hot-Dipped Galvanization

Hyundai Translead offers an Anti-Corrosion Package, with hot-dipped galvanization as a standard feature.

- In-house galvanization ensures quality control
- Protects from winter road chemicals, magnesium and calcium chloride
- Less maintenance and extended life

5x
Longer

Thermal integrity, reliable durability, and exceptional quality deliver outstanding performance. Hyundai Translead's refrigerated vans withstand hard elements and deliver greater thermal efficiency to protect freight and fleet investments.

Thermal Efficiency

Tighter seal throughout the van frame combine with improvements in insulation materials and application for greater thermal efficiency.

- Reinforced polypropylene floor sills with corrosion-resistant screws
- Computer-controlled foam mix, density and placement for accuracy and quality
- Interlocking joints prevent moisture intrusion
- One-piece seamless bonded corner cover
- Void-free proprietary insulation
- Accurate foamed-in corner joints
- Reduced closure tolerances
- Modular construction reduces voids

Lighter Weight

Enhanced materials and engineering make the ThermoTech® both stronger and lighter.

- Redesigned front Interior corner closures
- Hybrid steel & aluminum components provide same strength with lighter weight
- One sheet corrugated roof

Efficiency & Savings

Enhanced materials and engineering result in a stronger and lighter product.
